NET ZERO CARBON BY 2030

We are on a race to achieve net zero carbon emissions by 2030, actively combatting climate change through our corporate social responsibility initiatives. We also have a dedicated ESG practice to help clients reach their own green goals. We work with the community at large to achieve our net zero goals.

We continue to engage our peers, regulators, and industry bodies to support policies relating to Singapore's climate change defences and the Singapore Green Plan 2030 to align with the Paris Agreement goal to achieve net zero by 2050 or sooner.
